## **ANNOUNCING THE 2019 AIANY + ASLA-NY TRANSPORTATION + INFRASTRUCTURE DESIGN EXCELLENCE AWARDS**

*AECOM-Arup Joint Venture was recognized with the Best in Competition Award for the Second Avenue Subway Stations.*

**NEW YORK CITY, November 4, 2019** – AIA New York and ASLA-NY are proud to announce the winners of the [2019 AIANY + ASLA-NY Transportation + Infrastructure Design Excellence Awards](#). Eight projects were selected by an independent jury of architects, designers, critics, and planners.

The selected projects represent exceptional transportation and infrastructure work designed by AIA and ASLA members in New York, New Jersey, Connecticut, and Pennsylvania. Each project was evaluated based on their commitment to sustainability, community engagement, and civic architecture.

Architects and landscape architects submitted entries in five categories: Open Space, Planning, Projects, Structures, and Student Work; awards were conferred for all categories except Planning. Entries within those categories were eligible for recognition as Honors (the highest level of achievement), Merits (distinguished achievement), or Citations (exemplary achievement on specific project aspects). Of the 36 completed submissions, jurors selected **Second Avenue Subway by AECOM-Arup Joint Venture as the Best in Competition**. 4 of the 8 winning projects, including the Best in Competition, are located in New York City.

Award recipients were announced and celebrated at a public Winners' Event at the Center for Architecture on Monday, October 28.

### **About AIA New York**

AIA New York is the oldest and largest chapter of the American Institute of Architects with more than 5,500 architect, allied professional, student, and public members. AIANY is dedicated to three goals: design excellence, public outreach and professional development.  
[www.aiany.org](http://www.aiany.org)

### **About ASLA-NY**

ASLA-NY is the New York Chapter of the American Society of Landscape Architects, the national professional association representing landscape architects. ASLA-NY was founded in 1914 (the second chapter of the national organization) to advocate for and serve members studying and practicing landscape architecture in the New York Metropolitan-Long Island region. The territory of the Chapter encompasses the five boroughs of New York City, Nassau and Suffolk counties on Long Island, and Westchester, Putnam, Dutchess, Orange and

Rockland counties. The Chapter is comprised of over 500 members who engage in public, private and academic practices that participate in the careful stewardship, wise planning and artful design of our cultural and natural environments. New York State has two chapters; New York Upstate represents the communities north of Westchester.
