**ANNOUNCING THE 2022 AIANY + ASLANY  
TRANSPORTATION + INFRASTRUCTURE DESIGN  
EXCELLENCE AWARDS**

*Five transportation and infrastructure projects across the US were awarded by an independent jury of architects, designers, critics, and planners.*

**NEW YORK CITY, June 21, 2022** – AIA New York and ASLANY are proud to announce the winners of the **2022 AIANY + ASLA-NY Transportation + Infrastructure Design Excellence Awards**. Five projects were selected by an independent jury of architects, landscape architects, and planners.

The selected projects represent exceptional transportation and infrastructure work designed by registered architects, landscape architects, planners, and students. Each project was evaluated based on its commitment to sustainability, community engagement, and civic architecture.

Architects and landscape architects submitted entries in five categories: Open Space, Planning, Projects, Structures, and Student Work; awards were conferred for all categories except Student Work. Entries within those categories were eligible for recognition as Honors (the highest level of achievement), Merits (distinguished achievement), or Citations (exemplary achievement on specific project aspects).

Award recipients were announced and celebrated at a virtual [Winners' Event on Thursday, June 16](#).
