## I. OPENING PRESENTATION/ DISCUSSION

- Introductions by Kami Altman and Brian Pape, co-chairs
- Brian E Bainson from Quatrefoil Inc. will discuss his experience developing the [Portland Memory Garden](#).

## 2. IDEAS FROM PREVIOUS MEETINGS + DISCUSSION TOPICS

- **Advocacy for Alzheimer's gardens to be incorporated in NYC Parks.**
  - o Potential project to present to AIA NY as committee grant submission.
- **Global examples of architecture (or planning) that respond to the needs of older persons.**
  - o Looking for examples that are specifically responding to the needs of older persons in the face of climate change. [Fitwel](#) which is a building certification system which promotes occupant health is an examples.
  - o Kathy has been in contact with Christophe Lalande (Head of Housing at UN habitat) who noted work his organization is doing related to housing and sustainable design but not necessarily related to older persons.
  - o [The Clarion Group](#) (London, UK) is an example of a company that supports new community housing including housing for older persons. Looking for specific project to study.
  - o Additional resources related to aging:
    - [NYAM's Global Roadmap for Healthy Longevity](#) .
    - [Centre for Ageing Better](#)
  - o Potential discussion topics for future meetings:
    - [KS Handbook for Age Friendly Communities](#)
    - [WHO Housing and Health Design Guidelines](#)
    - [Giesserei Multi-Generational House](#)
- **Connecting with more school programs focused on design for aging**

### 3. EVENTS IN FORMATION FOR TAFEL HALL PANELS 2023

#### **Panel Topic A: Women led architecture firms and design for aging-**

Chia-Yi / Kami / Brian are coordinating with WIA committee to have event Q1, 2024. Working on panelist list.

Chia-Yi has put together a brief of the presentation:

*“Like many professions in the United States, female architects and designers have been growing in numbers across the board, from technical designers, project managers, project architects, to business owners. How does this growth in female design professionals reflect in senior living and care environments? What are their strengths and secrets of their success? These women architects will share how they transform their life experiences and challenges into design strategies as well as firm management, to build better homes for their clients and better working environment for themselves.*

*Join us to learn these leading professionals’ stories and various methods of incorporating universal design and inclusive design practices in their work and daily lives. Young women architects, newcomers will discover their own strengths to positively impact Design for Aging. All attendees are encouraged to find opportunities in making New York City a better city for aging in place.”*

Potential Speakers: [Taylor Plosser Davis, AIA](#), [Leah Alissa Bayer, AIA](#), [Dominique Haggerty, AIA](#), [Gail Ressler](#),

#### **Panel Topic B: Public Toilets – Where to they work and where do they not, and why?**

Potential collaboration with Social Science & Architecture committee to put panel together of advocates from difference cities (US and abroad?) of more public toilets to discuss how the concept works in their cities and why.

#### **Panel Topic C: ADU’s (Accessory Dwelling Units)**

Potential collaboration with Housing Committee for event regarding ADU’s in light of success on West coast.
